Non-GAAP Financial Measures

This presentation references non-GAAP (Generally Accepted Accounting Principles) financial measures. Such non-GAAP financial measures are provided as additional information and should not be considered substitutes for, or superior to, financial measures calculated in accordance with U.S. GAAP. Such non-GAAP financial measures are provided for consistency and comparability to prior year results; furthermore, management believes they are useful to investors when evaluating the Company's performance as they exclude certain items that management believes are not indicative of the Company's operating performance. Such non-GAAP financial measures may differ materially from the non-GAAP financial measures used by other companies. The financial statement tables that accompany our press releases include a reconciliation of each non-GAAP financial measure to the most directly comparable U.S. GAAP financial measure and a more detailed discussion of each financial measure; as such, the financial statement tables should be read in conjunction with the presentation of these non-GAAP financial measures.

This presentation also references pro-forma information which reflects the impact from acquisitions and divestitures as of the beginning of periods being presented or compared.

Adjusted EBITDA is defined as net income (loss) attributable to common shareholders before depreciation and amortization, interest expense, income tax expense (benefit), acquisition and integration costs, restructuring costs, legal settlement charge, (gain) loss on derivative liability, impairment charges, other expense (income), net, equity compensation, and net income attributable to non-controlling interest in subsidiary.

Adjusted Earnings Per Diluted Share (EPS) is defined as net income (loss) attributable to common shareholders per diluted share before acquisition and integration costs, restructuring costs, impairment charges, and (gain) loss on derivative liability.
