

Cross Country Healthcare and Airbnb Work Together to Help in the Fight Against COVID-19

April 28, 2020

Cross Country Healthcare's medical professionals to receive safe, affordable housing through Airbnb's Frontline Stays Program

BOCA RATON, Fla.--(BUSINESS WIRE)--Apr. 28, 2020-- Cross Country Healthcare, Inc., (NASDAQ: CCRN), a leading provider of total talent management including workforce solutions, contingent staffing, permanent placement and other consultative services for healthcare clients, is collaborating with Airbnb through its Frontline Stays program to provide comfortable, convenient accommodations to healthcare workers and first responders fighting COVID-19. Airbnb's stated goal is to help house 100,000 healthcare professionals, relief workers, and first responders globally, and the company will waive all fees for stays arranged through this initiative.

Cross Country Healthcare will have access to listings made available by Airbnb hosts across the country and the ability to book stays on behalf of its frontline staff using Airbnb For Work's booking tool.

"The safety and well-being of our healthcare providers as they work on the front lines in the fight against COVID-19 is our top priority," said Kevin Clark, co-founder and CEO of Cross Country Healthcare. "This collaboration with Airbnb and its host community will help broaden and strengthen our efforts to continue achieving that goal by offering these affordable, convenient housing options across the nation, and we are extremely grateful for their support during this extraordinary time."

"We are grateful to collaborate with one of the largest healthcare staffing firms in the U.S. on this initiative to connect frontline responders fighting COVID-19 with our incredible host community," said David Holyoke, director of Airbnb for Work. "Working together, we can ensure workers have safe and convenient places to stay while they carry out their critical work."

Airbnb's Frontline Stays program is designed to provide comfortable spaces for COVID-19 responders which allow them to be close to their patients and/or safely distanced from their families. In collaboration with leading experts and officials, Airbnb developed robust preventive practice and stringent safety standards for hosts who opt into the program. Many of these hosts are offering their spaces for free or at a discount, and Airbnb has agreed to waive service fees for the first 100,000 bookings through the program. Healthcare providers who wish to book a stay through this program can [sign up here](#).
